

GYPSHADE BUILDING PRODUCTS PVT. LTD.

Engineered for Strength Finished with Precision

Premium Gypsum & Metal Framing Solutions

ABOUT GYP SHADE

Gyshade Building Products Pvt. Ltd. is a premium manufacturer of gypsum-based building materials and metal framing systems, engineered for modern architectural and interior applications.

Established in 2022, Gyshade focuses on delivering whiter finishes, higher coverage, and structurally superior systems that meet the evolving expectations of architects, contractors, interior designers, and builders. Every Gyshade product is developed with a clear intent to elevate surface quality, enhance site efficiency, and support sustainable construction practices.

Our products are developed for the evolving requirements of:

Architects | Builders | Contractors | Interior Designers | Applicators

VISION, MISSION & VALUES

Our Vision

To become a trusted premium building materials brand, shaping high-quality and sustainable interior spaces across India.

Our Mission

To manufacture high performance Gypsum and framing solutions that combine engineering precision, aesthetic excellence, and environmental responsibility.

Our Core Values

- Uncompromised quality
- Sustainable and ecoconscious products
- Technical integrity
- Consistency in performance

WHY GYP SHADE?

Higher Coverage

Optimised formulations designed for efficient material utilisation.

Less Paint Consumption

A smoother, whiter base helps reduce finishing material use.

Whiter Finish

Designed to deliver cleaner, brighter interior surfaces.

Low VOC Formulations

Developed with greater emphasis on responsible interior applications.

Crack Resistant

Developed to support durable interior finishes.

Stronger Framing Systems

Heavy-duty framing engineered for structural stability and alignment.

PRODUCT PORTFOLIO

01. PREMIUM PLASTER OF PARIS

High-whiteness plaster designed for decorative finishes and architectural interior applications.

02. PREMIUM GYPSUM PLASTER

Smooth, high-coverage gypsum plaster engineered for modern interior wall surfaces.

03. HEAVY-DUTY METAL FRAMING SYSTEMS

Structurally stronger framing solutions for ceilings and drywall partition systems.

PREMIUM PLASTER OF PARIS

Premium Whiteness. Smooth Workability. Refined Finishes.

Gypshade Premium Plaster of Paris is engineered for decorative and architectural interior applications where finish quality, whiteness and workability matter.

Its formulation is designed to provide a smooth application experience while supporting clean, refined interior surfaces.

Best Suited For:

- Decorative ceilings
- Cornices
- Mouldings
- Architectural detailing
- Interior decorative finishes

PRODUCT ADVANTAGES

- **Extra White Premium Finish**

Supports brighter and cleaner finished surfaces.

- **Higher Coverage per kg**

Designed for efficient material utilisation.

- **Smooth Setting**

Supports controlled application and finishing.

- **Easy Application**

Designed for improved workability at site.

APPLICATIONS

- Decorative ceilings
- Cornices
- Mouldings
- Architectural detailing
- Interior wall finishes

Available Packaging

25 kg | 40 kg

PREMIUM GYPSUM PLASTER

Smooth Walls. Consistent Performance.

GYP SHADE Premium Gypsum Plaster is developed for modern interior wall applications where surface smoothness, workability and consistency are essential.

Designed for residential and commercial interiors, it offers uniform application and supports a refined finished surface.

Product Advantages:

- Brighter & Whiter Surface Finish
- Higher Area Coverage
- Excellent Workability
- Crack-Resistant Performance
- Moisture & Fire Resistance
- Low VOC Formulation

APPLICATIONS

- Internal wall plastering
- RCC surfaces
- Block surfaces
- Residential interiors
- Commercial interiors

Available Packaging

40 kg

GYP SHADE

HEAVY DUTY METAL FRAMING

Strength Behind Every Finish.

GYP SHADE Metal Framing Systems are engineered for modern ceiling and drywall partition applications where strength, alignment and long-term stability are critical.

Manufactured using galvanized steel, the system is designed to provide enhanced rigidity and dependable structural performance.

0.60 mm Thickness - Stronger than standard systems.

Technical Specifications

Specification	Details
Material	Galvanized Steel
Thickness	0.60 mm
GI Coating	120 gsm
POP Framing Length	8 ft
Gypsum Framing Length	12 ft

ENGINEERED FOR

- Better rigidity
- Improved alignment
- Enhanced load-bearing capability
- Long-term durability
- Ceiling systems
- Drywall partitions

Framing Product Dimensions

Partition Framing System

Product	Dimensions (mm)
Ultra Section	51 × 26 × 26 × 3660
Ultra Intermediate	45 × 15 × 15 × 3660
Ultra Perimeter	30 × 27 × 26 × 3660
Ultra Angle	20 × 20 × 3660

Ceiling Framing System

Product	Dimensions (mm)
Ultra Main	45 × 20 × 20 × 2440
Ultra Cross	25 × 13 × 13 × 2440
Ultra Angle	19 × 19 × 2440

COMPARISON

Comparison based on commonly available market specifications.

Gyshade vs Conventional Market Products

Parameter	Gypshade	Conventional
Whiteness	Higher	Standard
Coverage	Higher	Lower
Crack Resistance	Yes	Limited
VOC Levels	Low	Higher
Metal Thickness	0.60 mm	0.50 mm
Structural Strength	High	Medium

QUALITY & CERTIFICATIONS

Gyshade products are manufactured under strict quality control protocols to ensure consistent performance, reliability, and compliance with relevant industry standards.

Quality Assurance Approach

- In-house quality control procedures
- Third-party testing and verification
- Batch-level monitoring for consistency
- Compliance with applicable quality standards

Certifications

- ISO Certified Manufacturing
- ISI Certified (Plaster of Paris)

SUSTAINABILITY COMMITMENT

Gyshade is committed to responsible manufacturing practices that prioritise environmental safety, efficient resource utilisation, and long-term product performance.

Our Approach to Sustainability

- Low VOC product formulations
- Eco-friendly material composition
- Reduced material wastage during application
- Long product lifecycle and durability

Responsible materials contribute to healthier spaces and more sustainable construction outcomes.

DESIGNED FOR DIVERSE PROJECTS

Gyshade solutions are designed to perform consistently across a wide range of residential, commercial, and institutional environments.

Residential

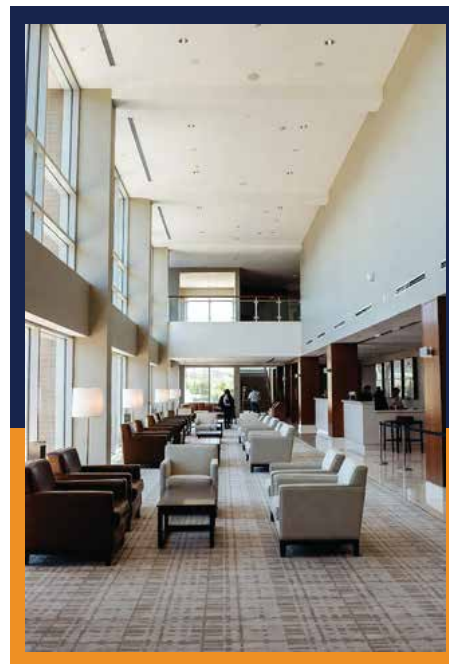

Retail

Commercial
